PROJECT SKILLS

Visa Application System

ASP.NET

User Authentication: Implemented secure user signup and login functionalities.

Visa Application Process: Developed features for users to apply for a visa and save applications in draft mode.

User Dashboard: Created a dashboard for users to view and manage their visa application details.

Admin Panel: Built an admin login and dashboard for verifying visa applications.

Application Status Management: Enabled admins to change visa application status from draft to approved.

Email Notifications: Integrated email notifications to inform applicants of their application approval along with the application ID.
